## INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY

International application No.

PCT/SE2004/001148

Box	No. I	Basis of the report				
1.	1. With regard to the language, this report is based on the international application in the language in which it was filed, unless otherwise indicated under this item.					
		This report is based on a translation from the original language into the following language, which is the language of a translation furnished for the purposes of:				
	international search (under Rules 12.3 and 23.1(b))					
		publication of the international application (under Rule 12.4)				
		international preliminary examination (under Rules 55.2 and/or 55.3)				
2.	furnish	regard to the elements of the international application, this report is based on (replacement sheets which have been hed to the receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" re not annexed to this report):				
	$\mathbb{H}$	the international application as originally filed/furnished				
	$\boxtimes$	the description:  pages 1-5 as originally filed/furnished				
		pages 1-5 as originally filed/furnished  pages* received by this Authority on				
Ì		pages* received by this Authority on				
	$\square$	the claims:				
1	·	pages as originally filed/furnished				
		pages* as amended (together with any statement) under Article 19				
		pages* 8-9 received by this Authority on 04.03.2005				
		pages* received by this Authority on				
1	$\boxtimes$	the drawings:				
		pages 1-2 as originally filed/furnished				
		pages* received by this Authority on				
		pages* received by this Authority on				
		a sequence listing and/or any related table(s) – see Supplemental Box Relating to Sequence Listing.				
3.		The amendments have resulted in the cancellation of:				
		the description, pages				
		the claims, Nos.				
		the drawings, sheets/figs				
		the sequence listing (specify):				
		any table(s) related to the sequence listing (specify):				
4	· 🗆	This report has been established as if (some of) the amendments annexed to this report and listed below had not been made, since they have been considered to go beyond the disclosure as filed, as indicated in the Supplemental Box (Ru 70.2(c)).				
		the description, pages				
		the claims, Nos.				
1		the drawings, sheets/figs				
		the sequence listing (specify):				
		any table(s) related to the sequence listing (specify):				
	* If item 4 applies, some or all of those sheets may be marked "superseded."

### INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY

International application No.

PCT/SE2004/001148

Box No. V Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

#### 1. Statement

Novelty (N)	Claims Claims	1-10	YES NO
Inventive step (IS)	Claims Claims	1-10	YES NO
Industrial applicability (IA)	Claims Claims	1-10	YES . NO

### 2. Citations and explanations (Rule 70.7)

Documents cited in the International Search Report:

D1: US 4457483 A

D2: US 6296212 B1

D3: FR 2780029 A1

D4: US 3936087 A

D5: US 4749011 A

D6: US 4760982 A

D7: US 4955496 A

D8: US 5716033 A

D9: US 6007030 A

D10: US 6520554 B2

The cited documents represent the general state of the art. The invention defined in claims 1-10 is not disclosed by any of these documents.

The cited prior art does not give any indication that would lead a person skilled in the art to the claimed screen. Therefore, the claimed invention is not obvious to a person skilled in the art.

Accordingly, the invention defined in claims 1-10 is novel and is considered to involve an inventive step. The invention is industrially applicable.

8.

0 4 -03- 2005

#### Claims:

15

1. Screen for holding refuse sacks (7) open, characterized in

that the screen (1) is shorter than the refuse sack (7) such that open parts (7b) of the refuse sack (7) can 5 be folded into the screen (1),

that the screen (1) is designed to stretch the refuse sack (7), and

that a locking device (11) is provided on the screen (1) such that open parts (7b) of the refuse sack (7) can 10 be pressed on said locking device (11).

2. Screen according to claim 1, characterized in

that the screen (1) consists of elastic material and is compressible from a normal shape to a narrower shape,

that the refuse sack (7) can be threaded onto the screen (1) or said screen (1) be inserted into said refuse sack (7) when said screen (1) is compressed to a narrower shape, and

- 20 that the screen (1) can be brought to spring out from its narrower shape to its normal shape and thereby stretch the refuse sack (7).
- 3. Screen according to claim 2, characterized in that a holding-together member (13) is provided to hold the screen (1) in its narrower shape.
- 4. Screen according to any preceding claim, c h a r a c t e r i z e d i n that second end portions (1c) of the screen (1) has at least one handle opening (6) into which parts (12) of the refuse sack (7) are insert-30 able such that one can get hold of the handle opening (6) in order to lift and carry the screen (1) and the refuse sack (7).
- 5. Screen according to any preceding claim, c h a r a c t e r i z e d i n that the locking device (11)
  35 comprises pins (11a) which extend outwards from second

end portions (1c) of the screen (1) and against which open parts (7b) of the refuse sack (7) can be pressed preferably for penetration thereof.

- 6. Screen according to any preceding claim, c h a r a c t e r i z e d i n that the screen (1) in cross section has a semicircular or substantially semicircular shape.
- 7. Screen according to claim 1, c h a r a c t e r i z e d i n that the screen (1) is provided to permit 10 location thereof, with a refuse sack (7) provided thereon, on a support (8) from which refuse shall be moved into the refuse sack (7), such that those parts (12) of the refuse sack (7) which extend between the two longitudinal edges (2, 3) of the screen (1) and which thereby have a planar or substantially planar shape, are situated close to and/or engage said support (8).
- 8. Screen according to any preceding claim, c h a r a c t e r i z e d i n that the longitudinal edges (2, 3) of the screen (1) are designed or include members 20 for preventing damage of the refuse sack (7) by said longitudinal edges (2, 3).
- 9. Screen according to any preceding claim, c h a r a c t e r i z e d i n that a strip (15) can be hooked onto two longitudinal edges (2, 3) of the screen (1) such that said strip (15) extends across an opening (1a) between said edges (2, 3) at second end portions (1c) of the screen (1) and that open parts (7b) of the refuse sack (7) can be folded within said strip (15).
- 10. Screen according to any preceding claim, cha30 racterized in

that the screen (1) is thin-walled and elastic and consists of polypropylene or similar material, and

that the refuse sack (7) is a plastic bag from which the screen (1) can be removed and which can be tied up after removal of the screen (1).
